- 24/7 Customized Clinical Trials Electronic Portal

### We'll partner with you to:

#### Put your programs on the fast track

We specialize in program design for product liability, clinical trials, product recall, and professional liability and can arrange your coverage without a learning curve. Our expertise allows us to be proactive, working on your behalf to turn documentation around quickly so that you can stay in motion.

#### Manage global trials and claims

The ABD Clinical Trial Insurance Platform is one of a kind. Built from scratch with input from clients, our cloud-based platform provides a secure space where you can obtain timely information on insurance updates, and manage and collaborate on files. You'll also be able to provide 24/7 access to global members of your team for speedy reviews and approvals.

#### Obtain the best coverage and terms

Our focus on building relationships with carriers and vendors means better terms for you. We provide broad access to the insurance marketplace, and work to find you the best coverage at competitive rates. We also offer valuable benchmarking and comparisons to guide the decision-making process.

#### Stay protected throughout clinical trials

Clinical trials are your most vulnerable area of exposure. Our proprietary Clinical Trial Pac Coverage is designed to keep you protected, with important coverage grants that are otherwise not available for clinical stage companies. The program includes a suite of newly agreed-upon endorsements, and delivers a superior, competitively priced product you won't find in traditional insurance programs.
