

## ABD Circle of Care

Create a company-wide culture of safety and wellbeing.

### A revolutionary approach to health and safety.

Navigating the workers' compensation claim process is complex and confusing. It involves dealing with many different players — claim adjusters, defense attorneys, medical providers, nurse case managers, and more — each who play critical roles in processing the claim. Through ABD's multifaceted approach, we help you more confidently manage workplace injuries, prioritize employee health and well-being, and control costs.

#### Prevention and Risk Readiness

We work with you to implement best practices and programs to mitigate workplace injuries and illness before they occur.

#### Injury and Illness Management

We guide your team through the complex workers' compensation system in real time, ensuring the best advocates are involved every step of the way.

#### Recovery and Wellbeing

We understand the importance of return to work and help you make plans so that employees can remain healthy and safe at work.
