

## Benefits Experience Platform

Simplify the healthcare experience for your employees.

You work hard to make sure your employees have a range of competitive benefits that support their financial and personal wellbeing, and in today's digital world, you're expected to ensure they have easy access to these benefits.

That is why ABD has partnered with HealthJoy to bring you a benefits experience platform that will help you save money while helping your employees better engage with and adopt the benefits that your company provides.

## The Future of Benefits

HealthJoy is a first-of-its-kind benefits experience platform helping companies save money while improving employee satisfaction. Through personalized guidance and AI technology, employees are empowered to better use and understand their benefits.

With all benefits together in one place, empower your employees with:

- **On-demand access:** Employees gain access to online medical consultations, live healthcare concierges, Rx savings, and much more. HealthJoy integrates a client's existing benefits to deliver an employee their personalized benefits wallet.
- **Year-round education:** HealthJoy keeps employees engaged and educated, meaning fewer questions for HR and a better employee benefits experience. JOY, your virtual benefits assistant, even handles personalized engagement campaigns to keep benefits top-of-mind.
- **Transparent pricing:** In every recommendation, HealthJoy is empowering employees to become healthcare shoppers and fundamentally changing the dynamics of healthcare.

## HealthJoy

A single source of truth with personalized guidance and support, helping employees navigate the healthcare system and all their benefits with confidence and ease.
